# Remeo launches gelato in jars, including Caffé Espresso

Andreas Exarheas  
 14 Jul 2014

London-based Remeo has launched a range of premium gelato in jars.

Available in Caffé Espresso, Vanilla and Chocolate flavours, the new dairy desserts are made in Italy using pasteurised milk and are made with 100% natural ingredients.

According to the brand, Remeo gelati are 35% lower in fat compared to regular ice cream, and the innovative jar format is designed to 'best preserve taste and freshness'.
